

Workforce Smarter.

Identify and fill skills gaps across cybersecurity and cyber-enabled teams.

01 Does your workforce need work?

Every organization is different and has different goals as it relates to cybersecurity skills. We work closely with stakeholders to understand your workforce goals and implement a training solution in line with your business objectives.

Enterprise organizations trust CyberVista as a partner to engage team members and build a better prepared, more scalable workforce.

01 Workforce Audit

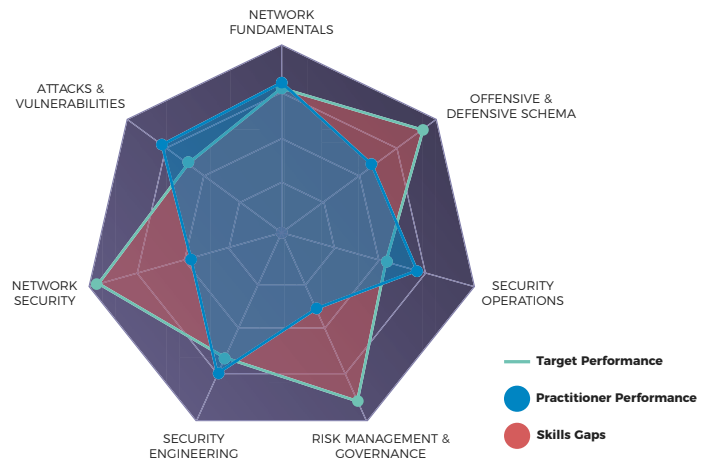

Build a blueprint that serves as the foundation of a comprehensive cyber talent strategy.

- Establish the knowledge, skills, and abilities needed within roles.
- Create career pathways
- Identify talent gaps

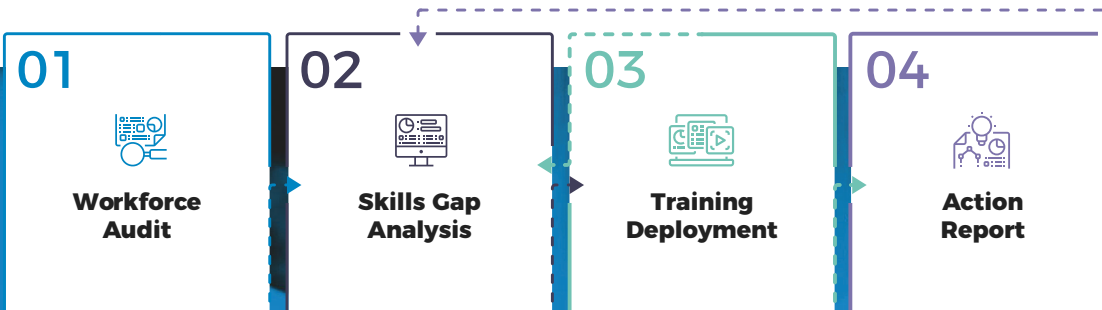

02 Skills Gap Analysis

Leverage diagnostic assessments to identify skills gaps within your current cybersecurity and cyber-enabled workforce and validate role profiles/uncertainty.

As the saying goes, you can't improve what you don't measure. We provide organizations with efficient assessment tools designed to create benchmarks while revealing areas of strength and weakness.

Clearly identify areas of weakness or "skills gaps" at the individual level or across an entire team.

03

Training Deployment

Train through configured, knowledge-based, and practical programs focused on building knowledge, skills, and abilities. From the server room to the board room, CyberVista offers training solutions to meet your needs across three distinct areas.

Role-Based Training

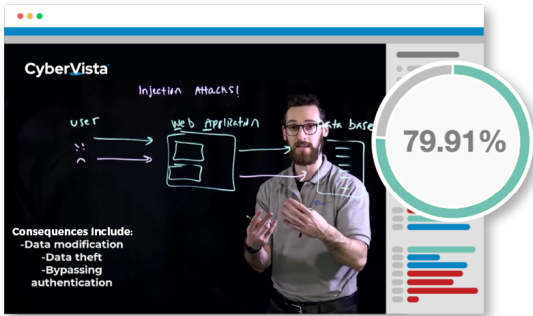

Aligned with the NICE Workforce Framework, upskill and cross-skill cybersecurity and cyber-enabled team members across your organization.

Certifications

Effectively prepare for certifications across all areas of cybersecurity and IT, including networking, cloud, and artificial intelligence.

Risk Management

Increase cyber literacy and decision-making skills among leadership teams while meeting compliance requirements.

Training deployments are available onsite, on-demand, and live online to maximize engagement.

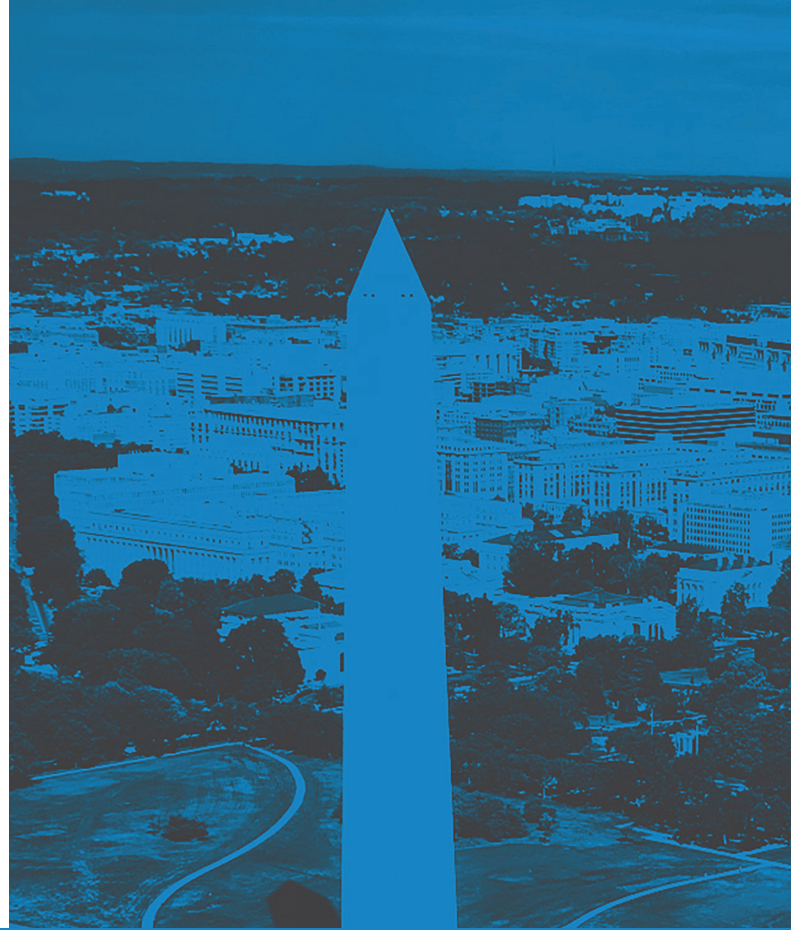

04

Action Report

Receive a written report packed with actionable takeaways that can drive decision making within your workforce, including training plans.

The Action Report synthesizes data and results from the previous phases of the CyberVista engagement.

About CyberVista

CyberVista is a cybersecurity workforce development company. Our mission is to build and strengthen organizations by providing cybersecurity professionals with the knowledge, skills, and abilities needed to drive growth and defense.

Founded in 2016, CyberVista benefits from the rich 84 year history of Kaplan—one of the world's premier training providers—as its sister company and ally. In 2018, CyberVista welcomed Transcender into the brand. Transcender brings over 25 years of helping organizations and practitioners build technical job skills across all areas of IT and cybersecurity.
